

MADE TO BE YOURS

We chose the name Nutshell because it represents simplicity at its best. A nutshell holds only what matters - nothing extra, nothing wasted. That's how we design: essential shapes, responsibly sourced, durable materials and long-lasting quality, all distilled into products that do exactly what they're meant to.

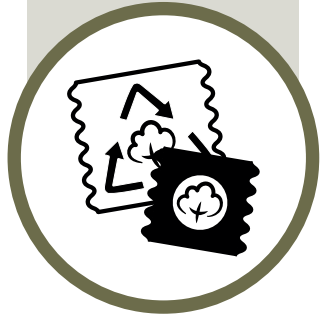

EVERYTHING YOU NEED, IN A NUTSHELL.

BETTER MATERIALS, NOT MORE

We use GOTS certified organic cotton and GRS certified recycled cotton to reduce environmental impact from the start.

DESIGNED FOR LONGEVITY

We design every bag with purpose, from reinforced handle stitching and weight-tested builds to timeless shapes that won't date. Our goal is simple: bags that are chosen, kept, loved, and reused not thrown away.

TRACEABILITY YOU CAN TRUST

Our certifications cover every step of the journey from fibre sourcing and environmental controls to ethical working standards and restricted chemicals. Every product is fully traceable from seed, to spinning, to stitching, to the final bag in your hands.

RESPONSIBLE PRODUCTION, RESPECTFUL PARTNERSHIPS

We work closely with audited factories that share our values. Our long-term partnerships ensure fair working conditions, safe environments, living-wage compliance, and open, transparent communication.

MADE TO BE YOURS

Nutshell bags are made to showcase who you are whether you're a business, brand, or individual. With custom-ready designs, multiple shapes and weights and a considered colour palette, we make sustainability modern, expressive and anything but beige.

CONTINUOUS IMPROVEMENT

We're constantly improving from new materials and reduced packaging to carbon efficiency and waste-saving design details.

As we grow, we stay accountable.

RE-STYLING SHOPPING ONE BAG AT A TIME

The best reusable bags are the ones that look so good, you never forget to take them with you.

At Nutshell, we design thoughtful, durable bags using natural materials from cotton and jute to recycled and organic fabrics. We're continually working towards more responsible material choices, giving new life to fibres that might otherwise go to waste, and creating bags that are made to be reused, loved, and relied on every day.
